

GUARANTEED BACKUP CONTRACT

Buy Before You Sell & Shift the Risk

Through the traditional path, most homebuyers must rely on selling their existing home in order to afford a new one. Adding stress, time, and uncertainty to an already emotional process.

With Guaranteed Backup Contract*, an existing homeowner can buy their next home without counting their current mortgage in the debt ratio calculation.**

That means, you can provide both peace of mind and flexibility to your client. Giving them the freedom to dream bigger before they sell their existing home.

This solution is truly unique and provides an unparalleled experience and seamless process at a low cost.
